BUNDLED ACCESSORIES

- **Superior Hardware Design**
- **Gainward's** award winning High-Performance/Wide-Bandwidth™ hardware design powered by Dual NVIDIA's GeForce™ **GT200** GPU (55nm) integrating **1792MB/896bits** high-speed GDDR3 memory which offers enhanced, leading-edge performance for the 3D enthusiasts.
- **576MHz** core clock, **1008MHz** (DDR 1616) memory clock.
- High performance 2-slot Fan Cooling.
- **Dual DVI** (with Dual-link DVI, support up to 2560x1600) support.
- Provides **HDMI** (through converter) functionality up to 1080p resolution.
- Supports two monitors simultaneously, enabled by the NVIDIA **nView™** Multi-Display Technology for office applications, 3D gaming and professional applications such as CAD, DTP, animation or video editing. NVIDIA **nView™** allows end-users to select any combination of multiple displays, including a DVI, CRT, and HDMI.
- Includes Gainward's award winning **EXPERTTool™** tuning utility for customized performance enhancements and efficient desktop management.
- Easy Plug-and-Play **AUTORUN** installation from CD-ROM.

- **Dual NVIDIA GeForce™ GT200**
- **2nd Generation NVIDIA Unified Architecture:** Second generation architecture delivers 50% more gaming performance over the first generation through 240 enhanced processor cores that provide incredible shading horsepower.
- **NVIDIA PhysX™-Ready:** GeForce GPU support for NVIDIA PhysX technology, enabling a totally new class of physical gaming interaction for a more dynamic and realistic experience with GeForce.
- **GigaThread Technology:** Massively multi-threaded architecture supports thousands of independent, simultaneous threads, providing extreme processing efficiency in advanced, next generation shader programs.
- **Full Microsoft DirectX 10 Support:** DirectX 10 with full Shader Model 4.0 support delivers unparalleled levels of graphics realism and film-quality effects for today's hottest games.
- **NVIDIA CUDA™ Technology:** CUDA technology unlocks the power of the GPU's processor cores to accelerate the most demanding system tasks – such as video transcoding – delivering up to 7x of performance over traditional CPUs.

- Gainward QuickStart Manual

- Driver CD and Application S/W

Driver for Windows Vista/XP/2000

- Cables and Accessories

Internal SPDIF cable (HDMI audio support)

Gainward GTX 295 1792MB Dual DVI

- **NVIDIA SLI Multi-Monitor support** Switch seamlessly between multi-display desktop mode and full screen 3D gaming with SLI. And enjoy full multi-GPU support for dual-display capable 3D games such as World in Conflict, Supreme Commander Forged Alliance, and Flight Simulator X.
- **NVIDIA Quad SLI™ Technology:** Industry leading Quad SLI technology offers amazing performance scaling by implementing 4-way AFR (Alternate Frame Rendering) for the world's premier gaming solution under Windows Vista with solid, state-of-the-art drivers.
- **NVIDIA ForceWare Unified Driver Architecture (UDA):** Delivers a proven record of compatibility, reliability, and stability with the widest range of games and applications. ForceWare provides the best out-of-box experience and delivers continuous performance and feature updates over the life of NVIDIA GeForce GPU.
- **PCI Express 2.0 Support:** Designed to run perfectly with the new PCI Express 2.0 bus architecture, offering a future-proofing bridge to tomorrow's most bandwidth-hungry games and 3D applications by maximizing the 16 GB/s PCI Express 2.0 bandwidth (twice that of first generation PCI Express).

- **NVIDIA Lumenex Engine:** Delivers stunning image quality and floating point accuracy at ultra-fast frame rates:
 - 16x Anti-aliasing:** Lightning fast, high-quality anti-aliasing at up to 16x sample rates obliterates jagged edges.
 - 128-bit floating point High Dynamic-Range (HDR) Lighting:** Twice the precision of prior generations for incredibly realistic lighting effects – now with support for anti-aliasing.
- **OpenGL 3.0 Optimizations and Support:** Ensures top-notch compatibility and performance for OpenGL application.
- **PureVideo™ HD technology** The combination of high-definition video decode acceleration and post-processing that delivers unprecedented picture clarity, smooth video, accurate color, and precise image scaling for movies and video. It provides ultra-smooth playback of H.264, VC-1, WMV, MPEG-2 HD and SD movies.
- **Dual-link HDCP Capable** Designed to meet the output protection management (HDCP) and security specifications of the Blu-ray Disc and HD DVD formats, allowing the playback of encrypted movie content on PCs when connected to HDCP-compliant displays.

Note: Gainward's bundle items are subject to change. Please refer to your local Gainward dealer for more information, or the description in the regional product package

SYSTEM REQUIREMENTS

- Intel Core2Duo series, AMD Athlon 64 X2 series or above CPU
- Minimum of 2GB system memory
- Minimum 680W system power supply with both one 6-pin and one 8-pin PCI Express supplementary power connectors
- DVD-ROM drive
- Requires a PCI Express 2.0 compliant motherboard
- Requires a dual-width x16 graphics slot
- Windows Vista/XP/2000

API SUPPORT

- DirectX 9.0c/10 in hardware
- OpenGL 3.0 support

OS SUPPORT

- Windows Vista/XP/2000

BAR CODE

- Large Box: 426018336-0506
