Gainward Unique Features

■ Gainward Superior Hardware Design

High quality components – DrMOS, solid capacitors and high quality Ferrite core chokes to ensure low energy loss, low EMI noise and longer lifespan

■ Five display ports Design

Provides flexible configuration for multiple-monitor application. Those connectors located in-a-row leaves enough space on top for hot air to flow out. All connectors are metal-shielding for EMI shielding and dustproof.

■ Expertool II

Gainward's Expertool II – the brand-new utility adds flexible fan curve control and BIOS saving feature for powerful GTX 980 card.

Minimum system requirements

Graphics card require:

- PCI Express-compliant motherboard with one dual-width x16 graphics slot
- One 6-pin and one 8-pin PCI Express supplementary power connectors
- Minimum 500W or greater system power supply
- Microsoft Windows 8, 7, Vista
